Open Access Week
at The University of Queensland Library

The University of Queensland Library is celebrating Open Access Week 2017 with a series seminars and workshops including a visit from major publisher Elsevier, and a jointly presented event with the Queensland University of Technology and Griffith University.

Unless otherwise noted, please book in to these sessions via the link provided. All sessions are held on The University of Queensland St Lucia campus.

For more information about Open Access contact your Liaison Librarian or visit the UQ Library website.

Monday, 23 October 2017

12pm-12.45pm
ZOOM online event

ZOOM Online Event: Unethical practitioners in a world of open access
In this session you will learn about some of the questionable practices which are currently being used by unethical profiteers to hijack and disrupt the open access movement in academic publishing.

Please note: This is a ZOOM online event, and is open to all campuses. You will be able to access the meeting via any UQ computer or your own device. Registrants will receive an email 2 days prior to the event with a link to login to the session. Unfortunately, we are unable to offer technical support on the day. For information on how to setup and login to a Zoom meeting please see FAQs here.
Register for this session on StudentHub.

Tuesday, 24 October 2017

12pm-1pm
Training Room D501
Centre for
Digital Scholarship
Level 5, Duhig Tower (#2)

Data Management Plan (DMP) for research project and grant writing
A Data Management Plan (DMP) ensures the success of a research project. Major funding agencies and government bodies require researchers applying for funding to provide information regarding how data generated during the research project will be managed, shared and made re-useable for future research. This workshop will introduce the essential elements of a research data management plan.
Register for this session on StudentHub.

1pm-1.30pm
Training Room D501
Centre for
Digital Scholarship
Level 5, Duhig Tower (#2)

UQ eSpace repository for Green Open Access publishing
In this session, you will:
- find out what a green open acess version of your paper looks like
- learn how to upload your open access version
- understand how UQ eSpace will continue to support open access
Register for this session on StudentHub.

1.30pm-2pm
Training Room D501
Centre for
Digital Scholarship
Level 5, Duhig Tower (#2)

Digitisation: opening access to UQ Library collections
In this 20 minute session, discover how digitisation improves access to UQ Library collections. Learn how to find open access texts, images, and historical resources in UQ eSpace.
Register for this session on StudentHub.

8am-10.30am
Terrace Room
Level 6, Sir Llew Edwards
Building (#14)

Open Educational Resources: Open in order to... transform education
Hosted by The University of Queensland Library in collaboration with Queensland University of Technology and Griffith University. This event celebrates the diversity and innovative use of Online Educational Resources (OERs) across three Brisbane universities.
Register for this session.

10:45am-11am
Centre for Digital Scholarship
Level 5, Duhig Tower (#2)

Tour of the Centre for Digital Scholarship
Please indicate your interest in attending the tour when registering for the tri-university *Open Educational Resources: Open in order to... transform education* event.

12.30pm-1.30pm
Training Room W227
Law Library
Level 2, Forgan Smith
Building (#1)

Elsevier Library Information Session (This session is for Library staff only)
An opportunity for you to have all your questions about the use and functionality of SciVal or Scopus answered by an Elsevier representative, who will be on campus to help UQ and the Library celebrate Open Access Week. Come along and get a complete overview or just refresh your knowledge. Either way, the publisher has welcomed all and any questions from library staff about these products and are keen to give you the answers. The session will be recorded for staff located on other campuses and the link will be sent out following the event.
Register for this session on StudentHub.

2pm-5pm
Senate Room
Level 5, Brian Wilson
Chancellery (#61A)

Elsevier Publishing workshop for Early Career Researchers and Higher Degree by Research students
Open access publishing has grown dramatically in the past few years. There have been many positive initiatives to help researchers communicate and access information in a sustainable way. However, as with many paradigm shifts, there are growing pains, including predatory journal practices, and a lack of clarity around terms and options. To coincide with Open Access Week, Elsevier is hosting a session with The University of Queensland on helping researchers to understand journal publishing and Open Access.
Register for this session.

10am-12pm
Training Room D217
Level 2, Duhig Tower (#2)

Protect your work from predatory publishers (This session is for HDR students only)
Information about some of the questionable practices which are being used to profit from the open access movement in academic publishing.
Register for this session.

11am-12pm
Webinar

Open Access Week 2017 webinar presented by SPARC's Heather Joseph.
As part of international Open Access week activities, the Australasian Open Access Strategy Group (AOASG) hosts Executive Director of the Scholarly Publishing and Academic Resources Coalition (SPARC), Heather Joseph, as a special guest presenter. Heather is currently leading charge to get the issue of Open Access through the US Congress via the bipartisan *Fair Access to Science and Technology Research Act*. She is a world leader on the issues surrounding open access and an exceptionally engaging speaker.
Register for this session.

12pm-1pm
Training Room D501
Centre for
Digital Scholarship
Level 5, Duhig Tower (#2)

Managing and sharing sensitive data
Do you collect sensitive research data ranging from human participants, cultural practices, ecology or threatened species? Sharing your research data is still an option, and the advantages of publishing the sensitive data will outweigh any potential disadvantages when simple and appropriate steps are taken. This workshop will look at what sensitive data is, how to manage it and what are the techniques you can use to safely share it.
Register for this session on StudentHub.

1pm-2pm
Training Room D501
Centre for
Digital Scholarship
Level 5, Duhig Tower (#2)

Publishing data in UQ eSpace
This workshop takes you through, step-by-step, how to create a record in UQ eSpace. The record can be for the datasets underpinning one or more of your publications, or it can simply be for research data you wish to be archived. Options for Open Access, Mediated Access and embargoes will be explained.
Register for this session on StudentHub.

11am-12pm
Training Room D501
Centre for
Digital Scholarship
Level 5, Duhig Tower (#2)

Open Access in order to make copyright work for me
Imagine the unimaginable making copyright work for you! All welcome.
Register for this session on StudentHub.

12.30pm-2pm
Training Room D501
Centre for
Digital Scholarship
Level 5, Duhig Tower (#2)

Open in order to… share your research responsibly
Learn about Responsible Research Sharing including, using UQ eSpace and best practice (copyright compliant) use of online collaborative and sharing platforms. E.g. ResearchGate; Academia.edu. Includes a discussion of Creative Commons licensing by the UQ Copyright Team.
Register for this session on StudentHub.

Teaching and Learning Week 2017: UQ Library panel discussion

Join The University of Queensland Library panel discussion *Open content: New directions in supporting teaching and learning at UQ* on Monday, 30 October as part of Teaching and Learning Week 2017. The event will be of great value to professional staff, including librarians, learning designers, and educational technologists, as well as academic managers. This session will provide an opportunity for those new to the field to learn more, and for those with experience to share their knowledge.

Open content: New directions in supporting teaching and learning at UQ
This event will introduce participants to some of the key features of open content in higher education. Open educational resources have been defined as teaching and learning materials which are available for everyone to use with the goals of utilising web technologies to share freely, improve access to wide groups of stakeholders, prevent duplication, promote economic efficiencies and avoid restrictive copyright practices.[1] Open educational resources extend from small individual learning assets through to large Massive Open Online Courses (MOOCs), as well as encompassing open textbooks and student generated content.

The invited panel members will provide you with the opportunity to learn about the different dimensions of open content from the perspectives of policy and practice. The issues covered will introduce participants to the characteristics of open content, provide insights into the creation and management of OERs, consider the legal requirements of open licensing and outline the resources and networks available to academic and professional staff. The discussion will appeal to those who want to know how open content can support student learning outcomes, as well as those who have already explored the pedagogical opportunities and can share their experiences.

1pm-3pm
Room 202
Learning Innovation
Building (#17)

- Dr Gillian Hallam, Information and Digital Literacy, UQ Library (Chair)
- Bill Beach, Associate Director, Client Services, UQ Library
- John Zornig, Acting Director, UQx
- Dr Sam McKenzie, Project Manager, UQ Student Strategy
- Kerry Kilner, Director, AustLit
- Pablo Riveros, Educational Designer, Faculty of Science
- Jessica Stevens, PhD candidate in Intellectual Property and Innovation Law, QUT

Register for this session.
